# 6 Figure Grid references - step by step guide

5) Imagine the line has been split into 10 equal pieces. Count how many equal spaces up the cross marking Legoland is.

3) Put the first 2 numbers together - 932

6) Put the second 2 numbers together - 747

7) Put all 6 digits together to get your 6 figure grid references - 932, 747.

4) The second part of the grid reference - read it from the map.

9 8 7 6 5 4 3 2 1
